Experience

- Feb 2022 – Present London

Head of Engineering (AIE)
Capgemini

Since 2022 I formally lead the Engineering Team in Capgemini's London Applied Innovation Exchange. My responsibilities ranged from day-to-day client delivery leadership to team growth and hiring, technology strategy, client stakeholder engagement, delivery planning and resourcing, management and mentorship.

- April 2017 – Feb 2022 London

Emerging Tech Lead
Capgemini

For 5 years I performed a Technical Lead role on Innovation projects at Capgemini's London Applied Innovation Exchange. This role required engagement across the project lifecycle from pitch and business development support through to technical design and delivery leadership. Whilst mentoring engineers of a range of experience.

- Sep 2015 – April 2017 London

Full-Stack Engineer
Capgemini

For 2 years I performed various Full-Stack engineering roles at Capgemini. From WSO2 API Management for HMRC through to various Full-Stack JavaScript and innovation engagements for clients such as DVSA, Johnnie Walker and Burberry.

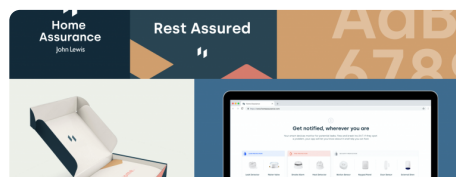

- May 2015 – Present Berkswell

Technical Lead
Capella Academy of Dance

Since 2015, I provide technical services for a local dance school. Having designed + developed branding, printed assets and implemented and maintained their website.

Featured projects

John Lewis Home Assurance

Launching a brand-new Internet of Things home insurance business for John Lewis.

Action for Children Elf.ai

Crafting an interactive in-store installation to raise money for vulnerable children.
